Overcoming Anxiety is facilitated by Dr.
Thomas Finn, a licensed psychologist with
over 40 years of experience in treating
anxiety conditions with Cognitive-
Behavioral Therapy (CBT).

*"Dr. Finn gave me practical tools to deal with
my daily situations of anxiety."*

Former Participant

*"The most profound lesson I learned was that so
many of my thoughts were 'automatic thoughts'
based on unrealistic beliefs. Once I began to
deal with more realistic thinking and became
conscious of my patterns I started to move in a
new, more positive and healthy direction. The
experience of this class changed my life."*

Former Participant

*"Dr. Finn provides techniques and exercises that
have changed the way I think about myself and
the world. I would highly recommend his class
to anyone who is looking for help coping with
anxiety."*

Anxiety is a common human feeling that we all experience at some time in our lives.

Many of us feel anxious, or nervous, when faced with stress, difficult situations or challenging decisions. However, when our levels of anxiety, worry and fear begin to interfere with day to day life, it is time to develop more effective ways to manage our anxiety and restore a healthier emotional balance.

Overcoming Anxiety is a six (6) session psycho-educational program designed to provide you with the basic tools for managing anxiety more effectively. The seminar is based on the principles of Cognitive-Behavioral Therapy (CBT), a highly effective therapeutic method for anxiety reduction.

The program will include topics such as:

understanding the biology of fear and anxiety

controlled breathing and relaxation techniques

the psychological roots of anxiety reactions

assertive communication

thinking patterns that trigger anxiety and how to change those patterns

The program runs for six (6) Wednesday evenings, in an engaging, enjoyable format. Individuals age 16 years or older are welcome.
