Learning, Prayer, and Reflection

Caring for a loved one with Alzheimer's disease or another dementia is a journey that is physically, emotionally, and spiritually challenging. The stress of caregiving places seemingly endless demands on our body, mind, and soul that can leave us feeling emotionally and spiritually drained.

A Caregiver's Well-Being retreat provides an opportunity for learning and connection among caregivers in a peaceful, Christ-centered environment. The day includes presentations and personal sharing by experienced caregivers and health professionals, prayer, individual reflection and group discussion.

Presentation topics include:

- **Understanding types and symptoms of dementia.**
- **Managing caregiving stress.**
- **Discovering deeper meaning in caregiving relationships.**
- **Deepening our relationship to God in the midst of suffering.**
- **Identifying resources for caregiver support and growth.**

Embracing the stress of caregiving while never losing sight of our loved one's dignity as a person is never an easy task. We invite you to join us as together we grow in caregiving knowledge, in skills, and, in hope.
